Fortunes Awalting Claimants. -By order of Parliament a report has Bust been made out and published concerning the unclaimed funds in the keeping of the various English government. The chancery division of the Supreme Court of Judicature has in its possession over \$300,000,000, after paying during the last two years \$85,000,000 to successful claimants. The Irish Court of Chancery holds some \$50,-000,000 of unclaimed moneys, while the unclaimed Government stocks and accumulated dividends retained by the treasury department amount to \$28,-000,000. Unclaimed dividends in bankruptcy are figured at \$50,000,000. while unclaimed army and navy prize money and accumulations of pay exceed \$3,000,000. All these funds are used by the British Government until claims thereto have been satisfactorily proved. An endeavor will be made to transfer to the state the custody of unand others. These funds are known to amount to a colossal sum, far exceeding the total amount of unclaimed money now in the keeping of the Government.-Boston Transcript.

A Red Handed Murderer. Tetterine kills the germs of Tetter, Eczema, Salt Rhoum, Ringworm and other skin diseases Most of these are caused by the existence of infinitesimal anamalculae. NEGRO COTTON MILL.

ually Begin

TO TAKE ON COLORED HELP.

Corner-Stone of the Cotton Mill of the Coleman Manufacturing Co. at Concord, N. C., Laid.

At Concord, N. C., on the 8th the corner-stone of the Coleman cotton mill was laid. This is the only mill in the world owned and to be operated by Negroes. The white people of Concord joined in the celebration of the day. The exercises were held in the court claimed funds in the hands of bankers | house and there were white and Negro speakers. Among the latter were Congressman White and Booker T. Washington. The mill is about two-thirds the address delivered by President Chas. F. Meserve, of Shaw University,

Raleigh, N. C., on this occasion:

in cotton manufacturing will be success, ful. I have faith in the colored race, even, if this individual enterprise, which brings us here today, fails, I still shall have faith in ultimate success. We can judge of the future only by the past. That you may understand how strong my faith is I will paraphrase Daniel Webster's interrogation. When has it happened that 4,000,000 of people of any race one-third of a century after emerg-Money is useful as a servant but tyranniing from slavery, or from primitive barbarism, have accumulated \$300,000,nearly half of whom can read and write, in whose ranks are found refined, cultured men and women, occupying useful and important positions in business and the learned professions, as well as

munity of the State and nation? turing in this country. We are accustomed to associate the colored man with the making of cotton, but he will You can't judge a man's character by the as a factory operative in its manufac-

"The help in the Southern mills, with the exception of one in Charleston, S. C., is white. They are largely An easy lesson in bookkeeping --- don't lend farmers' daughters as was the case in the North, when cotton manufacturing was in its infancy. In some sections today the rural districts are becoming in their respective communities, as was the case in the North fifty years ago. when Lucy Larcom was working in a Lowell mill. But the American girls drifted out of the mills, and strong mayor, is as follows: vigorous girls from the Emerald Isle took their places, and they, in turn, have been largely supplanted by the prolific French Canadians, who have numbers from the Province of Quebee, and, in some instances, I am ingone and un lesirable foreigners have taken their places. History will repeat itself, at least to some extent, here in the South. Most of the Southern States the South. Most of the Southern States | Frank Jackson, aged 4 years, is a son of have vast possibilities locked up in the case that died with smallpox recently. was a blight of this fair section of the Union, development of the natural resources was delayed, but this development has begun, and, although great progress has been made, it is merely in its infancy. The initiating and diwill mark the industrial progress of the next half century in the South, will naturally fall upon the race that has been longest on the road of civilization, and that race is the white race, It has rience and the greater culture and edueation. But this progress and development will redound greatly to the advantage of the colored people. The

white people are exchanging plantation for mill life, because they can earn "I had a severe pain in my left side and | more money than on the farm. As these vast natural resources are developed. new and more remunerative avenues of employment will be opened up, compe- ties of the disease being imported from tition will be rife, and mills will grad- elsewhere, and finding unprotected per ually begin to take on colored help. You sons here, may claim new victims, and know how it is. The colored man does establish new foci of infection. As to the dirtiest work and for the low | the methods of prevention of smallpox est wages and in the most cheerful there are only two practicable: "One spirit.
